OBJECTIVE

As a passionate and detail-oriented software engineer, I seek to join a forward-thinking tech company where I can contribute to designing, developing, and optimizing scalable software solutions. With a strong foundation in programming, problem-solving, and team collaboration, I aim to continuously enhance my technical skills while delivering

WORK EXPERIENCE

VinTech City, Hanoi   June 2020 - Present

Software Engineer

Main responsibilities:
- Developed and maintained scalable applications for a fintech platform, resulting in a 30% increase in processing speed and a 25% reduction in downtimes.
- Led a team of 5 developers in a project that redesigned the architecture of a legacy system using microservices, improving system resilience and scalability.
- Implemented continuous integration and continuous deployment (CI/CD) pipelines using Jenkins and Docker, enhancing the development process and reducing the release cycle time by 40%.
- Consult all the tech teams in the company in specific projects

FPT Software, Ho Chi Minh City   January 2018 - May 2020

Junior Software Developer

Main responsibilities:
- Assisted in the development of a cross-platform mobile application using React Native, which achieved over 100,000 downloads within six months of launch.
- Participated in the full software development lifecycle (SDLC) for three major client projects, focusing on coding, testing, and deployment.
- Contributed to the improvement of code quality by adopting Agile practices and conducting regular code reviews with senior developers.

VietSoftware International, Hanoi   June 2017 - December 2017

Intern

Main responsibilities:
- Supported the development of an internal CRM tool that led to a 20% increase in productivity for the sales team by automating data entry tasks.
- Gained proficiency in multiple programming languages, including Java, Python, and SQL, through hands-on experience and mentorship from experienced developers.
- Collaborated with a team to implement a new feature set for an e-commerce client, which improved user engagement by 15%.

EDUCATION

FPT University   Oct 2012 - May 2014

Software Engineering

GPA: 3.6/4

high-quality products that create real-world impact.

ACTIVITIES

Tech Club Member at University   Jan 22 2015   -   Jan 24 2016

Member

Actively participated in weekly tech club meetings, leading workshops on software troubleshooting and cybersecurity best practices. Collaborated on group projects to enhance campus IT infrastructure, significantly improving network reliability and security.

HONORS & AWARDS

Engineer of the Year   May 2014

Best Technical Presentation   May 2017

CERTIFICATIONS

Certified ScrumMaster   Jan 2016

AWS Certified Solutions Architect – Associate   May 2017
